MOTORIST SAFETY TIPS

CYCLISTS AREN'T ALWAYS IN THE RIGHT - BUT THEY ARE ALWAYS VULNERABLE

- Motorists are required to share the road with cyclists. Follow these tips to prevent collisions:
 - It is Kansas law to give a 3 feet minimum when passing a cyclist and only pass when it is safe to do so, as you would a vehicle.
 - Be attentive, avoid distractions and look out for cyclists on the road.
 - Slow down when you see a cyclist on the road.
 - Look for cyclists before turning.
 - Look for cyclists before opening car door when parked along streets.

PEDESTRIAN SAFETY TIPS

- Always walk on the sidewalk or trail. If there is not one, walk on the left side, facing traffic.
- Obey Walk / Don't Walk traffic signals.
- Don't wear headphones or talk on a cell phone while crossing streets.
- Wear bright or light colored clothing and reflective material.
- Don't rely solely on pedestrian signals. Always look before you cross the road.
- If possible, only cross streets on marked crosswalks or intersections.

CYCLING SAFETY TIPS

Bicyclists are required to follow the same rules of the road as motorists. Please abide by all traffic laws, ride safely, and be predictable, visible and courteous. Check your bicycle before riding and know your riding limitations. Ride in a manner that will not surprise motorists, pedestrians or other bicyclists.

- GEAR UP FOR SAFER CYCLING**
- Wear a helmet and bright or reflective clothing. Helmet use has been estimated to reduce head injury risk by 85 percent.
 - Watch for turning traffic.
 - Pedestrians have the right-of-way.
 - Obey signs and look each way twice at railroad crossings. Dismount and walk across tracks or cross at an angle.

- USE APPROPRIATE HAND SIGNALS**
- Always signal with your left hand.
 - RIGHT TURN
 - LEFT TURN
 - STOP

- GROUP RIDING**
- Ride in a single file line, avoiding overlapping wheels.

- AVOID DISTRACTIONS**
- Don't listen to music, talk on the phone or text while riding.

- WATCH A VIDEO**
-

- BE WARY ON SIDEWALKS**
- Avoid riding on the sidewalk - you are at a greater risk of being hit by a motorist at every driveway and intersection when biking on sidewalks.

- STAY VISIBLE**
- Lights and reflectors must be used when riding after dark. Lights must be visible for at least 500 feet, and a red rear reflector or light must be visible from 100 feet.

- BIKES ON TRANSIT**
- Travel greater distances in Hutchinson by using the bike racks mounted in the front of RCAT buses. These steps can be performed with the assistance of the bus driver.

- RULES OF THE ROAD**
- RIDE WITH TRAFFIC
 - GROUP RIDING
 - AVOID DISTRACTIONS
 - WATCH A VIDEO
