 - B. FY '22 Comprehensive Plan Grant Application - Supervision numbers are down because of a high number of absconders and new staff learning the job. Goals are pretty much in line with previous years, with a target rate of 40 participants admitted to SAP Class with 15 successful completions. ISO II Wilkins will coach staff monthly to improve their skills with a focus on core correctional practices and offender behavior change.
 - C. FY '22 Comprehensive Plan Grant Application Budget Items - This year the Adult grant and Behavioral Health grant are all one application. Most of the budget goes to personnel costs. The BH grant requests money for Horizons Care Coordinator, SACK Licensed Addictions Counselor, SACK Peer Mentor, offender housing, offender drug and alcohol evaluations, mental health medications and office visit copays, and BIP assessments. Motion to approve by Cathy Nisly with a second motion by Erica Rivera and all approve.
- 5) No other business to address.
